Riekert Holder

Computer Scientist

I'm a computer scientist who loves building mobile and web applications. I enjoy working with the full technology stack, from front to backend and everything inbetween. My computer science journey started when I was in the 10th grade and decided to take IT as a subject. Ever since my love for computers and programming grew rapidly.

Degree in Computer Science and Information Systems

North-West University

01/2018 - Present   *Potchefstroom*

Courses

- Ethical Hacking with Kali Linux
- React Native & Hooks
- Web Applications(C#)
- Operating Systems
- OOP Programming
- Web Design Full Stack
- AI
- Computer Networks
- Decision Support Systems

SKILLS

HTML   CSS   Python   Java   C++   C#

JavaScript   PHP   React Native   Firebase

SQL   Oracle

PERSONAL PROJECTS

Yelp API Mobile App (08/2019 - 09/2019)

- I created a yelp API mobile app with react native that lists 50 restaurants near your location

Forex Rates & Position Size Calculator (12/2019 - Present)

- I'm currently working on a API mobile app written with React Native that will give a user the foreign currency exchange rates. The app also has a position size calculator to show how big your position size must be regarding your risk and account capital.
